Aeris

Corporate Presentation

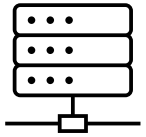

Solutions

We explore the boundless potential of technology and provide tailored solutions for businesses. Guiding enterprises on their transformation journey, we specialize in cloud technologies, data center solutions, virtualization, network and security solutions.

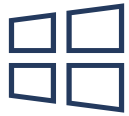

Cloud Technologies

We provide cloud-based solutions to enhance the flexibility and scalability of your business.

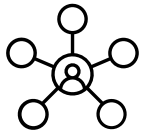

Data Center Solutions

Through data center solutions, we enable you to manage, and store your data effectively.

Virtualization Solutions

Elevate efficiency by transitioning physical infrastructure into a virtual environment.

Network Solutions

Strengthen your connections with a fast, secure, and reliable network infrastructure.

Security Solutions

We offer security solutions to protect your business against digital risks.

Business Solutions

We optimize your business processes to enhance efficiency. E-commerce..

Cloud Technologies

Microsoft Cloud

As a guiding force in businesses' digital transformation journey, we stand out with our expertise in Microsoft Azure and Office 365 services. Delivering tailored cloud solutions on Azure for cost savings and enhanced performance and maximizing collaboration and productivity with Office 365. We formulate digital transformation strategies, offer training and support, all to help you harness technology's finest for your business.

CloudFlex

CloudFlex Cloud

As data security and management play a critical role in today's business world, Aeris Group offers tailored data center solutions to businesses with our robust infrastructure and experienced team. We provide solutions in data storage, backup, security, and compliance, ensuring business continuity, managing your infrastructure, and contributing to your business growth by offering the latest technologies.

Adobe Creative Cloud

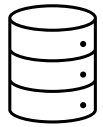

Unleash the power of innovation and design with the unique potential of Adobe Creative Cloud. At Aeris Group, we provide professional guidance to optimize your creative processes, efficiently manage design projects, and embrace the latest technologies. With our experienced team, we're here to push the boundaries of digital art and design.

HPE GreenLake

HPE GreenLake

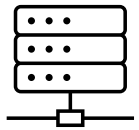

Embrace a future-driven approach to IT with our specialized HP GreenLake consulting services. As a trusted partner, we empower your organization to navigate the transformative potential of GreenLake's flexible, scalable, and cost-effective solutions. Our expert team ensures a seamless transition, from assessment to implementation, optimizing your infrastructure and enabling you to focus on innovation and growth. Elevate your business with our tailored GreenLake guidance and drive IT evolution forward.

Data Center Solutions

Storage Solutions

"We offer expert consultancy services, leveraging the expertise of industry giants such as Dell, HP, and EMC to tailor storage solutions that guarantee optimal data integrity, accessibility, and scalability for your business."

Server Solutions

"Our comprehensive server solutions are designed to empower businesses with cutting-edge technology. We deliver seamless integration, reliability, and performance, ensuring that your operations run smoothly and efficiently."

Backup Solutions

"We provide state-of-the-art backup solutions that prioritize the security and accessibility of your critical data. Our tailored approaches guarantee data protection, recovery, and peace of mind for your business."

Hyper-Converged Data Center

"Our hyper-converged data center solution revolutionizes infrastructure efficiency. We unify computing, storage, and networking into a single powerhouse, streamlining management and enabling your business to thrive in the digital age."

Business Continuity & Disaster Recovery

"Our business continuity and disaster recovery solution ensures that your operations remain resilient even in the face of adversity. We safeguard your critical assets, minimize downtime, and enable swift recovery to keep your business on track."

Virtualization Solutions

Server Virtualization

"Our server virtualization solution empowers businesses to optimize their IT infrastructure. Through cutting-edge technology, we enhance resource utilization, reduce costs, and simplify management, allowing your organization to scale with ease."

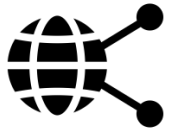

Desktop Virtualization

"Our desktop virtualization solution transforms the way businesses approach workforce mobility and efficiency. With seamless access to desktop environments from any device, we empower your workforce to be productive and agile, all while maintaining top-notch security."

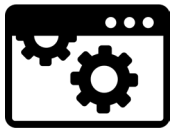

Data Center Virtualization

"Our data center virtualization solution revolutionizes the way businesses manage their IT infrastructure. By consolidating resources, optimizing scalability, and enhancing agility, we empower organizations to streamline operations, reduce costs, and achieve greater flexibility in the digital landscape."

Network Virtualization

"Our network virtualization solution redefines the possibilities of efficient and dynamic connectivity. By abstracting network resources, we empower businesses to achieve greater flexibility, security, and scalability, allowing them to adapt and thrive in the ever-evolving digital world."

Application Virtualization

"Our application virtualization solution transforms how businesses deliver and manage software. By isolating applications from the underlying infrastructure, we enhance compatibility, simplify updates, and elevate security, enabling organizations to maximize efficiency while minimizing operational complexities."

Business Solutions

Industry 4.0

"We lead the charge in Industry 4.0 solutions, helping businesses embrace the future of automation and connectivity. Our innovative technologies empower organizations to optimize operations, harness data-driven insights, and embark on a transformative journey towards unparalleled efficiency and competitiveness."

Asset Tracking

"Our asset tracking solution offers a seamless and efficient way for businesses to monitor and manage their valuable assets. Using state-of-the-art technology, we provide real-time visibility, accurate tracking, and actionable insights, empowering organizations to optimize asset utilization and streamline operations."

Construction Site Security

"Our Construction Site Security solution sets a new standard for safeguarding construction projects. Through advanced surveillance, access control, and real-time monitoring, we ensure a secure environment for sites, equipment, and personnel, enabling seamless project progression with enhanced safety."

Compliance Solutions

"Our compliance solutions offer a tailored approach to help businesses navigate regulatory complexities. Leveraging our expertise and innovative tools, we empower organizations to stay compliant, mitigate risks, and build a foundation of trust and accountability within their industries."

Industrial IOT Solutions

"Our Industrial IoT solutions pave the way for businesses to harness the power of interconnected devices and data. Through cutting-edge technology, we enable organizations to optimize operations, gain real-time insights, and drive efficiency across industrial processes, propelling them into the era of Industry 4.0."

VOC – IOT Air Quality Measurement System

"Our air quality measurement system solutions provide a proactive approach to monitoring and ensuring healthy indoor environments. Utilizing advanced sensors and analytics, we empower businesses to maintain optimal air quality, safeguarding the well-being of occupants and enhancing overall comfort and productivity."

Network Solutions

Wi-Fi 7 Wireless Network Solutions

"Our Wi-Fi 7 solution pioneers the next generation of wireless connectivity. With extended spectrum capabilities, we deliver lightning-fast speeds, lower latency, and enhanced capacity, providing businesses with a seamless and high-performance wireless network experience."

Network Solutions

"Our network solution offers a robust foundation for business connectivity. With cutting-edge technology, we design and implement reliable and high-speed wired networks, ensuring seamless communication, data transfer, and secure operations for your organization."

Network Security

"Our network security solution stands as a vigilant shield against digital threats. Through advanced technologies and vigilant monitoring, we safeguard your network infrastructure, data, and sensitive information, allowing your business to operate confidently in a secure digital environment."

Security Solutions

End User Security

"Our end-user security solutions offer a robust defense against evolving cyber threats. Through advanced technology and proactive strategies, we safeguard users and their devices, ensuring data privacy, minimizing vulnerabilities, and fostering a secure digital experience for individuals and businesses alike."

Corporate Data Security

"Our corporate data security solution provides a comprehensive shield against data breaches and unauthorized access. Leveraging cutting-edge encryption, access controls, and proactive monitoring, we prioritize the confidentiality and integrity of your sensitive information, allowing businesses to operate confidently in a secure digital landscape."

Penetration Test

"Our penetration test solution offers a rigorous assessment of your digital defenses. Through simulated cyberattacks, we identify vulnerabilities and weaknesses in your systems, enabling proactive measures to fortify your security posture and ensure a robust defense against potential threats."

CCTV Solutions

"Our CCTV solution provides comprehensive surveillance and monitoring capabilities. Using state-of-the-art cameras and analytics, we enable businesses to enhance security, deter potential threats, and maintain a watchful eye on premises and assets, ensuring peace of mind and proactive incident response."

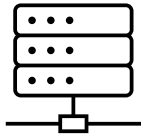

Services

We offer a range of services tailored to meet your enterprise's technology needs. From reliable Enterprise IT Support Services and flexible IT Equipment Rental Services, to comprehensive ISO 27001 Consulting Services and expert KVKK Consultancy, we are dedicated to providing top-tier solutions that empower your business for success

Enterprise IT Support

"Reliable IT support for enterprises, ensuring seamless operations and efficiency."

IT Equipment Rental

"Flexible IT equipment rental solutions for businesses, powering your technology needs."

Managed IT Services

"Tailored Managed IT Services for your business, blending efficiency and security."

Compliance Consultancy

"Guiding businesses to regulatory compliance with expert consultancy and solutions."

Thank you...
